**Attachments:** 2014 NATA R6 short-term action recommendation Aug 2 2018.docx

I made a few edits. Nothing significant. I will share this with David today and see if he is ok with it.

Fran, would you send me a draft response? I have a 1 pm with David and would like to see if he agrees.

**Subject:** NATA regional Communication Coordination

Wren, Lisa, and Guy,

On an EtO subgroup call yesterday, the primary topic was the NATA roll-out.

- OAQPS is asking that each Region designate a lead communications coordinator for the NATA work. They are asking for this name by COB today (8/2/18) to be sent to Darcie Smith and Mike Koerber.
- OAQPS is asking that each Region determine which facilities greater than  $10^{-4}$  risk will be the primary focus to start. They are asking for this information by COB today (8/2/18) to be sent to Darcie Smith and Mike Koerber. [NOTE: R6 has been in communication with Mike Koerber and will present this information on Monday 8/6/18.]

## Ex. 5 Deliberative Process (DP)

- The chart of facilities provided during the ADD meeting (attached) includes all identified EtO facilities with a risk greater than 100 in 1,000,000 for the census BLOCK level. Many of these are not above this risk at the Tract level.
